Trades Fixtures on Land.

Important Decision Affects Didsbury Farmer

The appeal court by unanimous judgment written by the Honorable Justice Clarke, Chief Justice Harvey, Mr. Justice Beck, Mr. Justice Hyndman and Mr. Justice Mitchell concurring, have handed down judgment on tenant's farm fixtures that is very important. The court held that the tenant was entitled to remove a windmill and cross fence, as being trades fixtures and not annexed to land.

J. F. Carscallen, of Red Deer, who owns a farm near Didsbury, rented the farm to Elizabeth Matt Leeson, wife of Frank Leeson, of Didsbury, for three years under a written lease, and another year was verbally given on the same terms as the written lease. The tenancy expired on March 1, 1926.

Leeson had erected on the premises a windmill, and built cross-fences to protect the growing crops, of which one-third as rental went to the landlord, Carscallen, and also Leeson attached wire to hog fence for the purpose of pasturing his hogs, and also had cut holes in the barn on the premises and inserted windows and sash. He was carrying on business as a dairy farmer, and before the expiration of his lease he was notified by the plaintiff, Carscallen, not to remove the windmill, the fences or the windows, but Leeson removed them all when he left the farm, and Carscallen sued him for damages for this removal, and Mrs. Leeson counter-claimed for certain work that had been performed.

At the trial in the district court before Judge Macdonald, Carscallen was allowed damages for \$256 for the removal of the fixtures and Mrs. Leeson was allowed \$280 on her counterclaim for work performed.

Carscallen appealed from this decision as to the judgment for the work and the defendant, Mrs. Leeson, cross appealed against the part of the judgment allowing damages for the fixtures. The appeal court dismissed the appeal of the plaintiff with costs, and allowed the defendant's cross appeal with costs.

The appeal court, in a lengthy judgment, stated that the law in the subject on tenant's fixtures was not clearly settled, but that there has been a growing tendency in the later decisions in favor of the removal of trades fixtures as between landlord and tenant, and that having regard to the degree of annexation and the object of annexation that these fixtures did not become so annexed as to become part of the land, and that the tenant was justified in removing them.

Municipal Convention.

The 10th annual convention of the Alberta Association of Municipal Districts will be held in the Memorial hall, Edmonton, November 23, 24 and 25, 1927, at which many matters of importance to rural Alberta will be up for consideration and discussion, and the indications are that practically every municipal unit will be represented.

The questions coming before the convention embrace old age pensions, health, noxious weeds, tax priorities, tax recovery, assessment appeals, election of the reeve at large, control of motor traffic, hall insurance and taxes on Soldier Settlement Board lands.

The Ban is Lifted.

The ban on children's travelling, imposed by orders of the provincial health department some weeks ago, on account of the infantile paralysis epidemic was lifted November 1st.

Reports from all parts of the province indicate that the situation has improved to such an extent that further restrictions on travelling will not be necessary, and the health department is notifying local health boards accordingly.

No Tampering With Exhibits

Management Of Chicago International Grain and Hay Show Take Preventive Measures

Following suggestions sent to them from various parts of the continent, the management of the Chicago International Grain and Hay Show have put into force a plan whereby any tampering with grain exhibits at the 1927 show will be practically impossible.

In a statement from the Saskatchewan Department of Agriculture it is noted that the ideas in this regard sent into the show management by M. D. Tullis, Sask., Field Crops Commissioner, have been followed out practically in their entirety.

Each state or province will send a duly credited representative according to the plan which has been put into operation, who will be responsible for entries from his section of the continent. The corn racks will be more tightly fitted this year, while licks will be provided for the grain racks.

The exhibits will be taken from their separate containers by the representative in charge of them when judging is being conducted.

British Airmen Retires

Germans Put Price On His Head During War

Air Commodore Charles Rumney Samson, known familiarly in England as the "Captain Kettle of the air force," has retired. With his retirement there ends the most adventurous career in the royal air force. He has purchased a house in Wiltshire, England, and will pass the remainder of his life in quiet contrast to his first 44 years. During the war, Commodore Samson was such a terror to the Germans that they put a price of \$5,000 on his head, dead or alive.

Mother can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Ten "Moth" aeroplanes have been ordered from the De Havilland Corporation of England at a cost of \$50,000 to the Canadian Government, according to announcement from the department of national defence. The eight aeroplanes will be used for the encouragement of Ottawa flying clubs.

The steamer Larch, which went to Hudson Straits with the government expedition to establish aerial bases for the purpose of studying navigation problems there, returned to Halifax bringing the crew of workmen who had the task of erecting three aeroplane and exploration bases.

The St. Louis Post Despatch says a movement is on foot to make the first order of business when congress convenes in December the award of a congressional medal for valor to Col. Charles A. Lindbergh for his Paris flight and to provide him with pay of \$4,000 a year for life as a retired army officer.

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safe-guarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhalation of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

Tenant—"I have a complaint to make, sir. The man upstairs has a new baby and it cries all night."

Landlord—"I'll speak to Jones and ask him to walk the floor with it."

Tenant—"Yes, do. He's been using roller skates."

Discover Ancient Tree

Cedar Stump In British Columbia Is Many Centuries Old

Through the cooperation of Mr. C. P. Riel, of the Seal Cove Lumber Company, Limited, Prince Rupert, B.C., and the Dominion Archaeologist of the National Museum of Canada the huge red cedar stump which stood on top of the kitchen midden on Rithie Point, near Seal Cove, in the northern end of Prince Rupert, British Columbia, was in October of this year, cut across so that the rings of annual growth can be counted. A preliminary count shows 325 rings without including the heart rot or the closely crowded outer rings. A more complete count is yet to be made and an effort will be attempted to find a more complete section of the stump where the great number of rings known to exist may actually be seen, and counted.

The Indian deposit is now known to certainly be over 325 years old, and to have reached its present height before 1500. It must be known to be older since the first and last rings of growth were too rotten to count on the section examined. Then, too, the heap must have taken time to form before the tree began to grow. How long ago the cedar fell is not known; probably nearly twenty years, and this must be added to arrive at the age of the heap.

The co-operation of the Lumber Company gives the Dominion Archaeologist the best opportunity for real exploration by excavation that he has had since 1914. It is thirteen years since he has had funds sufficient for profitable excavation.

Northern Manitoba Gold

American Mining Engineer Is Impressed With Possibilities Of The North

Northern Manitoba and the district which extends into it from Ontario promises to be one of the greatest gold fields in the world's history. C. F. Hermann, mining engineer, St. Louis, Missouri, stated on a visit to Winnipeg recently. Mr. Hermann spent a month investigating the Herb Lake area.

Herb Lake has a great future, the engineer thought, adding that the area across Canada's northern stretches would probably take the place of the Rand when that great African field was worked out. He had never seen gold so widely spread over a large area.

Too much money, he declared, had been spent on promotion and not enough in actually developing the ground. He strongly advocated the pick and shovel method of developing a mine.

"If the people who like to speculate in mining would spend some money in developing instead of buying properties, often sold by unscrupulous promoters, they would come out better in the long run," he said.

German economists say the prosperity peak of the country has been passed.

Diarrhea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan Alta., writes: "Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute

SUNDAY SCHOOL LESSON

NOVEMBER 6

AMOS PLEADS FOR JUSTICE

Golden Text: "Let justice roll down as waters, and righteousness as a mighty stream."—Amos 5:24.

Lesson: Amos, Chapters 5 and 7.

Devotional Reading: Proverbs 21:1-7.

Explanations and Comments

I. A Lament Over Israel, verses 1-3.—"Hear ye this word which I take up for a lamentation over you, O house of Israel." A "lamentation" is a technical term applied to poetry of a mournful tone, a dirge such as was chanted over the dead, as in David's lamentation over Saul and Jonathan (2 Samuel 1:17), or in the face of any calamity, such as Ezekiel uttered in Ezekiel 19. This lamentation in Amos has "the proper form of elegiac poetry in Hebrew, being composed of poetical verses in each of which a long line is followed by a short one."

Amos has been called "the first Doomsday of Israel." "The virgin of Israel is fallen," he cried, "she shall no more rise; she is cast down upon her land; there is none to raise her up." "The point of the figure, the virgin of Israel, is probably in that it represents Israel as free and untrammeled by the yoke of any foreign nation."—John Merlin Powis Smith.

So sure is the prophet of her fall that he speaks as if it were already accomplished, and her condition were hopeless. "How is it possible," said the people, "that the virgin daughter of Israel can be fallen, when everybody is rich; or that the kingdom can be undermined, when the nation is prosperous? Is it not a nation's function to develop trade? Are not empires constructed for the purpose of increasing foreign commerce, and developing the home market?" And now that trade with our great foreign markets and in our home market is at its height, this prophet comes and tells us that Israel is fallen, she can rise no more!" His countrymen judged by externals; Amos judged by principles. Amos saw and understood causes; the people recognized only results. Amos saw injustice and iniquity practised and he reasoned thus: "God is a God of justice. It is His will that justice should be done. Sooner or later God's will will be done, and our people must suffer. Although He Spoke many decades before the destruction of Samaria, the consequences, which He saw, came to pass. The virgin of Israel did fall, and she has risen no more!"—Rabbi Levy.

His prophecy was fulfilled, Zechariah, the son-and successor of Jerobeam II, was murdered after a reign of only six months; his successor, Shallum, reigned one month; Menahem, Pekahiah, Peka and Hoshea had brief reigns, and then, in 722 B.C., Samaria was conquered by Assyria, and the people carried off into exile.

"Wrongdoers escape punishment too often. Human justice, being human, is far from being perfect. And yet there are more persons who do not escape man's punishment than who do. It may be delayed, but it comes to them finally in one form or another. But suppose they do escape man's punishment; what of facing their own conscience, as David was forced to do? And if they escape that, what of facing their sins and weaknesses in their children? There is no escape. I know there often seems to be, but sometime, in some form we all have to face our sins."

His delay was fulfilled, Zechariah, the son-and successor of Jerobeam II, was murdered after a reign of only six months; his successor, Shallum, reigned one month; Menahem, Pekahiah, Peka and Hoshea had brief reigns, and then, in 722 B.C., Samaria was conquered by Assyria, and the people carried off into exile.

"Wrongdoers escape punishment too often. Human justice, being human, is far from being perfect. And yet there are more persons who do not escape man's punishment than who do. It may be delayed, but it comes to them finally in one form or another. But suppose they do escape man's punishment; what of facing their own conscience, as David was forced to do? And if they escape that, what of facing their sins and weaknesses in their children? There is no escape. I know there often seems to be, but sometime, in some form we all have to face our sins."

Some Notable Yields

Sixty Bushels Of Wheat and One Hundred and Twenty Bushels Of Oats To the Acre

All crop records for the Longford district were broken recently by Malcolm McKinnon, who threshed more than 3,000 bushels of wheat off a 50-acre field, which is 60 bushels to the acre. Mr. McKinnon has an average of 55 bushels to the acre from his entire crop.

On the farm of J. A. Munro at Alask, Saskatchewan, wheat on summer fallow yielded 60 bushels to the acre and graded No. 1 Northern. Wheat from fall and spring ploughing yielded 35 bushels and graded No. 1; oats 120 bushels to the acre.

For all pains—Minard's Liniment.

LESSON No. 14

Question: Why is emulsified cod-liver oil so efficient and so beneficial a food-tonic?

Answer: Because it is so easily assimilated and quickly builds up strength. Multitudes use it every day as in

SCOTT'S EMULSION

Fun Came High

Chas. A. Levine Spends a Lot Of Money On His Trip To Europe

Charles A. Levine had \$125,000 worth of fun during the past summer. Estimating the expenses of his flight to Europe in the Bellanca monoplane, Columbia, and his subsequent air tour of the continent, the first trans-Atlantic Air passenger said he had spent about \$125,000.

"It was a lot of fun, no matter what it cost," he said.

A PERFECT MEDICINE FOR LITTLE ONES

Baby's Own Tablets Should Be In Every Home Where There Are Children

The perfect medicine for little ones is found in Baby's Own Tablets. They are a gentle but thorough laxative which regulate the bowels, sweeten the stomach; drive out constipation and indigestion; break up colds and simple fevers and promote healthful refreshing sleep. It is impossible for Baby's Own Tablets to harm even the newborn babe, as they are absolutely guaranteed free from opiums or any other injurious drug.

Concerning the Tablets, Mrs. Alex. J. Perry, Atlantic, N.S., writes:—"I always keep Baby's Own Tablets in the house for the children, as I have found them a perfect medicine for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The national debt of Canada decreased by \$70,189,814 in the first half of the current fiscal year, that is from April 1st to September 30, 1927.

CATARRH

Heat Minard's and inhale. Excellent for colds in head, throat and chest.

A BROKEN DOWN SYSTEM.

This is a condition for disease to which doctors give many names, but which few of them really understand. It is simply weakness—breakdown, as it were, of the system which cannot sustain the system. No matter what may be its cause, whether it is almost numberless, its symptoms are sure to be the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, whistalone is absolutely essential in all such cases is increased vitality—vigor, vital strength, and energy to throw off these annoyings, and he might succeed the day this may be more certain to succeed by means of THE NEW FRENCH REMEDY.

THERAPION No. 3

than any other known combination. Sausages as it is taken in accordance with the directions accompanying it, will restore health.

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH,

and a new existence imparted in place of what had so lately seemed worn-out, used-up, and valueless. This wonderful medicament is suitable for all ages constitutions and conditions, in either sex; and it is difficult to give a general idea of the various forms in which it is used; but it will be specially and permanently effective by this recuperative essence, which is designed to cast into oblivion everything that had preceded it for this wide-spread & numerous class of human ailments. Sold by leading Chemists, or either by post mail from the Manufacturer, Dr. J. W. L. L. London.

"What did the lieutenant say to you when you danced with him?"

"He said lie was a desert before he met me."

"Ah, that is why he dances like a camel!"—Viking, Oslo.

LOCAL AND GENERAL

If one can take the report of the last meeting of the Didsbury I.O.D.E. as a fair sample of its activities, the members are to be congratulated on the work in which they are engaged.

The healing of the sick, and caring for the poor and needy, justify the existence of any organization, and form a fitting reply to those who query their formation.

Says an advt.: "Why take six per cent. on your investment, when you can make 50 per cent. and still play safe."

Sounds suspiciously like Chicago.

John F. Miller, Eye Sight Specialist of 404 Underwood Block, Calgary, will be at the Rosebud in Didsbury on Saturday, November 12th, for the purpose of correcting your eyes and your children's. Do not miss this opportunity.

The Ladies' Aid of the United Church are arranging a chicken

supper, to be followed by a program, to be held in the Opera House on Armistice Night, November 11th. Adults 50c, Children under 12, 25c.

Biblical sources inform us faith will move mountains. Our farmers have at least shown that it will move crops.

Didsbury long ago refused to have anything to do with street railways, claiming that they did not suit modern requirements.

Calgary, apparently, is of the same opinion.

Kendrick & Good shipped a carload of milk cows to A. D. Griffith at Beddington on Monday.

The Olds Elks Band will hold a concert in the Didsbury Opera House at 9:15 p.m. on Sunday. The programme will be intermittent with vocal and instrumental music. Silver collection.

On Saturday, November 5th the Opera House will offer to its patrons a colorful college comedy, so steeped in humor as to take a "combine" to hold you in your seat. It's called "The Poor Nut," starring Jack Mullall.

If current comment is any criterion the electric agreement will be approved by the ratepayers by a big majority. The vote is taken

* * * *

on Tuesday next, and it is a very important one, it is to be hoped that every qualified voter will get out. Voting is a privilege pertaining to one's citizenship, and its observances indicates a sense of one's duty.

The Women's Guild of St. Cyprian's Church will hold a sale of work and home-cooking on Saturday, December 3rd at the Opera House. Afternoon tea will also be served.

The W.C.T.U. will meet at the home of Mrs. St. Clair on November 9th, at 2:30 p.m.

Those desiring to contribute grain, fruit, vegetables, etc., to the Harvest Festival at St. Cyprian's Church. Please leave them in the vestry of the church on Saturday afternoon.

On Monday afternoon, November 7th, costumes for the masquerade Dance held in the evening by the I.O.D.E. will be had for hire at the Opera House.

Adshead's Garage recently sold three coaches to R. Lynch, J. J. Neufeld and Earl Klinek.

Harvest Thanksgiving Service at St. Cyprian's

Harvest thanksgiving service will be held at St. Cyprian's on Sunday afternoon next at three p.m. A cordial invitation is extended to the public.

The Pioneer has a beautiful range in Christmas cards.

Your Money Should Earn More For You!

CAREFUL DRYING OF WHEAT WILL SAVE MILLIONS

Winnipeg.—Important recommendations which probably will mean a saving of millions of dollars in the marketing of this year's grain crop of Western Canada are contained in a tentative report submitted to the Board of Grain Commissioners by the grain research committee of the Canadian Research Council.

Owing to adverse weather conditions, an immense amount of tough and damp grain is being threshed this year. This will necessitate careful drying. Last year a similar condition prevailed, and heavy discounts had to be made on European sales as a result of the general complaints regarding the quality of dried grain.

It is said that if the grain this year is properly dried, as recommended in the report, the great losses sustained during the last season can be eliminated and they were estimated to total into the millions of dollars. Thus the producers will get the direct benefit.

With a view to preventing the recurrence of heavy losses this year, the grain research committee at the request of the Canadian Wheat Pools undertook to investigate the effect of drying on the quality of wheat last January.

Plan Aviation Program For Coming Year

New Flights and Exploration Trips Included In U.S. Project

New York.—Aviation has advanced a new year's boom program calculated to surpass the unprecedented achievement of the season now drawing to a close.

That program includes:

Building of new factories by Charles A. Levine and Anthony H. G. Folkler. Manufacture by Levine of planes ranging from a "flier," priced at \$1,500, to a multi-motored type for ocean travel.

An air expedition into the Arctic under command of General Noble, member of the crew of the Norge.

A trans-Atlantic flight by Clarence D. Chamberlin in a huge Bellanca plane capable of transporting 20 persons.

Harry F. Guggenheim, Philadelphia, announced that he had created a fund to promote research work in the interest of aviation. The fund, it was announced, would be used to develop instruments which would reduce the hazards of flying.

A gold medal, to be awarded annually to the person who does the most to minimize the dangers of aviation, was announced by the Engineers' Club of Philadelphia.

Believe Clue Found To Missing 'Planes'

Rubber Ball Picked Up In Ocean
Bears Number 218

St. Johns, Nfld.—A report from Burgeo that a rubber ball had been picked up there, which was believed to have been dropped from an aeroplane, led to the hope that it might furnish some clue as to the yet unsolved fates of the trans-Atlantic planes, Whitebird and St. Raphael.

The ball, about two feet in diameter and made of an expensive material, was enclosed securely in a strong canvas bag. The numbers 226 and 17RE, a little worn, could be seen on the rubber, but a word on the outside casting was indecipherable, although it looked as if it might have been London.

The number 218 on the canvas bag was very distinct.

A Second Cave-In

Didsbury, Ont.—A second cave-in at the Mond Nickel Company mine at Worthington has put the Canadian Pacific Railway division at this point temporarily out of commission. The east bank of the cavity sloughed for a distance of 100 feet, 20 feet in depth but did not drag the roadbed into the cavity. However the tracks are not considered safe for traffic as the ground has been undermined.

Police Forces To Co-operate

Dominion Government Will Not Consider Withdrawal Of R.C.M.P.

Ottawa.—While the Dominion Government cannot for one moment consider the withdrawal of the Royal Canadian Mounted Police as agents of the Federal authority from the province of Saskatchewan as suggested in press despatches from Regina, some arrangement may be arrived at between provincial and federal authorities whereby the R.C.M.P. and the Saskatchewan Provincial Police will co-operate in the enforcement of provincial statutes.

This was the statement of Hon. Ernest Lapointe, Minister of Justice, regarding the police situation in the prairie province. Hon. Mr. Lapointe stated that the press despatch conveyed no news to him, since negotiations were under way last year between Saskatchewan authorities and himself as a result of the feeling at Regina that there was overlapping in provincial police work.

"There has been no trouble. It is purely a matter of economy," the minister said. "Saskatchewan authorities want to avoid overlapping, and think that provincial matters affecting the enforcement of the law could be better handled by one force or by closer co-operation between the existing authorities.

"The government has no idea of withdrawing any part of the R.C.M.P. anywhere, but we may be able to come to some arrangement with the gentlemen from the West at our meeting in the near future to ease the situation there."

Ontario Prefers Western Coal

Would Pay Higher Price If Necessary Opinion Of Premier Ferguson

Winnipeg.—There will be no amending of the constitution and no tampering with the British North America Act arising out of the conference of provincial premiers, slated to open in Ottawa on Nov. 3, according to Hon. Howard Ferguson, premier of Ontario, who on his arrival in Winnipeg from a tour of the West, characterized the placing of such question on the conference agenda as "absurd."

"When we get through with it, I don't think it will be raised again for some time," he said, adding that the premiers he had spoken to during his trip were of the same opinion as himself.

Referring to the question of Western coal for Ontario consumption, Mr. Ferguson said he believed the people of his province were willing, if necessary, to pay a bit more to use the native product. While glad to have U.S. capital for development, while he welcomed American co-operation and American settlers, he was averse to paying them money for something Canada produced, especially as once Canadian money crossed the border it stayed there.

Mr. Ferguson thought that with time, and as the result of careful discussion and study of all angles of the Western coal question, accompanied by a reasonable attitude, negotiations might lead somewhere.

Noted Schooner Sold

Ship On Which London Wrote "The Sea Wolf" Brought \$1,490

San Pedro, Cal.—A two-masted schooner, aboard which Jack London wrote his novel "The Sea Wolf," was sold under a United States' marshal's hammer for \$1,490 as the rum runner Hakadala. The schooner, which was known as the Saucy Lass when owned by the novelist, went to Mrs. Charman Conley Jones, of Los Angeles.

The rum runner was seized in April on the coast of Lower California. She was built in Victoria, B.C., in 1892. Her latest registry was Panama, but this was cancelled by Panama after seizure.

Hospital For Paralysis

Edmonton.—A temporary hospital for the care and treatment of infantile paralysis patients during the period of convalescence is to be established by the Provincial Government, according to announcement made here. Arrangements for getting the new hospital under way will be made as soon as a survey of the general situation with respect particularly to the likely number of cases, has been completed. Patients will be taken from all parts of the province.

Swims Across English Channel

Mercedes Fleitz, a London typist, who is the first English woman to swim the English Channel. Despite the lateness of the season and a heavy fog she walked victoriously ashore at St. Margaret's Bay at 10 p.m., after having been in the water 15 hours and 15 minutes. Twice previously had the channel been swum by women, both Americans.

Deny Charges Against Moscow Millionaires

Were Not Associated With Mission Says Former British Secretary

London.—The Daily Express quotes Edward Carnock, former secretary of the British Mission in Moscow, as denying that Kyrrl Prove, and Vladimir Prove, two former Moscow millionaires alleged to have supplied him with Red Army and navy mobilization plans, ever associated with the mission.

"It is another of the long series of scandals which followed the withdrawal of the British mission," Secretary Carnock, who is now in London, declared. "We are naturally concerned by the arrests because they mean almost certain death of scores of innocents."

According to the Daily Express, the charges also involve Sir Robert Hodgson, one-time head of the mission and the former British consul at Lenin grad.

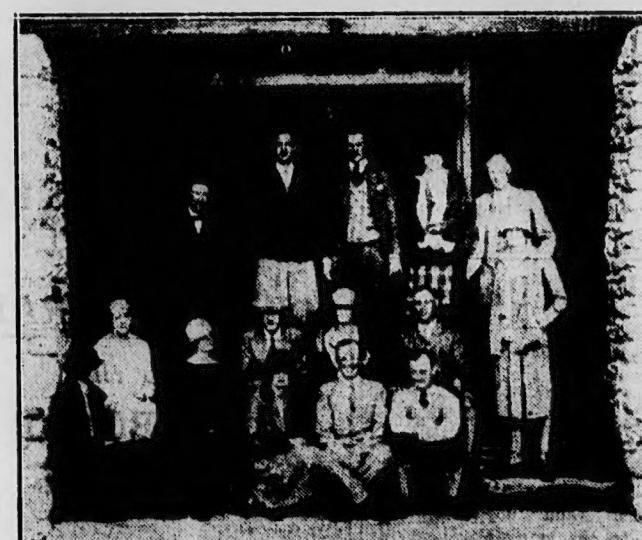

Remove Youthful King

Berlin.—Reports from Bucharest say that a case of cerebrospinal meningitis has broken out at the Royal Palace at Sinaia, Romania. As a precautionary measure young King Michael has been removed to a castle in the Carpathians.

Armistice Is Predicted

Chicago.—An armistice in Mexico's religious warfare will follow the presidential election there, Rev. Leopold Ruiz, exiled archbishop of Michoacan, predicted upon his arrival here.

GOVERNOR GENERAL AT JASPER

Their Excellencies the Governor-General and Lady Willingdon, and the other members of the Vice-Regal party, enjoying a quiet holiday at Jasper National Park, posed for this informal photograph just before luncheon. They had spent the morning golfing or on other outings. In the group are Major-General E. A. Ashton, of Ottawa, and Mrs. Ashton, Robert H. Davis, editor of the New York Sun, and Mrs. Davis, and R. H. Knight, acting superintendent of Jasper National Park, who were the luncheon guests of Their Excellencies on this occasion. Viscount and Lady Willingdon are seated on the steps in the centre. Mrs. Osborne is on the extreme left; next her is Mrs. Ashton; Mrs. Davis is on the right of His Excellency and Mr. Knight is seated beside Lady Willingdon; the Hon. Ruby Hardinge stands beside Mr. Knight. In the front row, left to right, are: Mr. Davis, Capt. E. C. McIville, Lord Hardinge, Lady Hardinge, and General Ashton.—Photograph, Canadian National Railways.

FINAL PAYMENT ON POOL WHEAT IS ANNOUNCED

Winnipeg.—A final payment of over nineteen million dollars on the 1926 crop of Pool wheat, was announced by A. J. McPhail, president of the Canadian Wheat Pool.

"Of the total amount the Saskatchewan Pool receives \$12,029,207, the Alberta Pool, \$4,198,587, and the Manitoba Pool, \$2,085,575," stated Mr. McPhail.

The total payment made by the Central Selling Agency to the three Provincial Pools represents the net balance after deducting all marketing costs incurred by the Central Selling Agency, such as storage, interest charges and administrative expenses from the proceeds of the 1926 crop.

"As in previous years the spreads between grades have been adjusted in the final payments which reflect the actual price secured for the various grades.

The final payments make the total price on the principal grades as follows: Number one Northern, \$1.42; Number one Durum, \$1.45; Number two Northern, \$1.37½; Number three, \$1.31; Number four, \$1.21½; Number five, \$1.09; Number six, 97½."

Mr. McPhail stated that the carrying charges and operating expenses of the Provincial Pools are deducted from the final payment. In addition the provincial pools made deductions for the commercial and elevator reserves, which are credited to the individual members. Members receive interest on the money lent by them to their Pool as an elevator reserve, which is used to provide elevator facilities.

The administrative expenses of the Central Selling Agency for the crop year of 1926-27, according to Mr. McPhail, were covered by a deduction of less than a fifth of a cent per bushel. The distribution of over nineteen million dollars brings the grand total paid by the Pools since the Alberta Pool started in 1923 to over six-hundred and seventy-million dollars.

Beam System Of Radio

Wm. Marconi Says It Is the Basis Of Future Improvements

Washington.—The beam system of radio transmission is the basis for all future wireless improvements, in the opinion of William Marconi, here as one of Italy's representatives at the international radio conference.

Upon its perfection, he believes, will depend to a large extent the development of such widely different wireless applications as photographic transmission and radio telephony.

Marconi explained how he had succeeded in restricting radio emanation to a beam diverging from the sending station at an angle of not more than two or three degrees. The effect of this, he continued, was that all energy of the transmitting station which under ordinary circumstances would have been spread in all directions was concentrated along this beam.

Owing to this concentration the strength of the incoming signal at the receiving station had been increased as much as 200 times in some cases. In trans-Atlantic communication between this country and England, he said, the beam system had strengthened messages 100 times. To obtain the same strength of incoming signals without directional transmission the sending power would have had to be increased 10,000 times, which, Marconi added, would not have been feasible.

Since the success of radio telephony and photographic transmission are dependent upon the strength of the incoming signal, Marconi declared he considered his experiments with beam transmission as a basic one for the improvement of the art.

Asked whether wireless would ever completely replace the cable, Marconi said the latter had only the advantage of secrecy, but that with the beam system secrecy is practically absolute in radio since words are transmitted at as high a rate as 500 per minute, requiring complicated and expensive receiving sets. In addition such messages are subject to reception only by stations in the direct part of the beam.

Continued from page 8
this cup will be similar to those governing Macdonald cup games, the main difference being that the team that wins the cup will be allowed to defend it only once, then new teams must be chosen for the next game. No team can defend twice in succession.

The games will be 16-end games and the teams winning the most number of games in three years to have permanent ownership of the cup. The cup games will be on Tuesday and Friday at 8 p.m. The first game will be played at Innisfail. Didsbury was drawn to make the first attempt to lift the cup, then Olds, Little Red Deer, Red Deer, and Crossfield in the order of names.

The trustees are W. G. Wilson, Wm. Edgar and D. H. Kremer; secretary-treasurer, E. E. Freeman.

—Exchange.

WORLD HAPPENINGS
BRIEFLY TOLD

Languages of all the races of the world will be preserved on phonograph records for posterity when a unique collection being made for the new museum of languages, Paris, is completed.

The negotiations in connection with the commercial treaty between Canada and Czechoslovakia are now so far advanced that a definite conclusion is expected during the course of the coming winter.

Sir Thomas Lipton completed his sixtieth voyage to the United States when he arrived at New York, recently, on the Leviathan with a challenge to American yachts for races in 1929. He made his first voyage in 1867.

A Toronto publishing house announces the publication next month of a book entitled "The Message of the Carillon and Other Addresses," by Premier Mackenzie King, with simultaneous publication in London and New York.

To study means of protecting the civilian population against the effects of chemical warfare, the Geneva International Red Cross Committee is arranging a meeting of international experts at Brussels, Belgium, January 16, 1928.

More telegrams of congratulation and well wishes are sent by Jewish people than any other group in the United States, the Western Union Telegraph Co. has found out, in compiling a record of messages of a non-business nature.

The Prince of Wales and Premier Stanley Baldwin have accepted invitations to be guests of the Canada Club at a dinner to be given in London, by the club, November 21. This is regarded as a sort of final wind-up celebration of the summer tour of His Royal Highness and the Premier in Canada.

The Toronto Telegram says: "Canada's next royal visitor is likely to be the Duke of York, for an authority informs us 1929 will see a visit of the second son of Their Majesties to Canada, when it is understood among his public duties will be the opening of Toronto's 'Royal York,' a new hotel."

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Westerners Receive Medical Degree

Four western candidates have successfully passed the October examinations of the medical council of Canada, permitting them to practice in any province in Canada. Thirty candidates successfully passed the examination. The westerners are: A. L. Buell, Vancouver; F. M. Jones, Victoria; W. H. Munn, Summerland, B.C.; and C. A. Ryan, Vancouver.

Once Famous Liner

Is Being Wrecked

Empress Of Japan Boasted Finer Equipment Than Many Modern Ships

The hammers and looms of a wrecking crew are making fast work of all that remains of the liner Empress of Japan, once one of the blue ribbon ships of the North Pacific.

For several years the old ship, which was launched in a British shipyard 37 years ago, has been lying at anchor in Burrard Inlet. Her once broad and majestic frame of clipper design has gradually been converted into a bare skeleton of steel, and in a few weeks even this will have gone to Japanese yards to be fabricated into material for new ships. It is said that the man who bought the vessel from the Canadian Pacific Railway, which operated the vessel so many years in the trans-Pacific trade, has already made a fortune through the removal and sale of the vessel's fittings. In these days of rapid production few ships are given the fine equipment such as the Empress of Japan boasted. Every rivet was a perfect job, the plates were sound, not a door in the bulkheads but swung freely and shut tightly as when the ship was new—all this, when the wrecking crew began its work of destruction.

The Empress of Japan had friends all over the world. Tens of thousands of people who were carried as passengers in the days of her prime remember the ship with pride that is shared by the scores of seafaring men who made the ship their headquarters for many years.

The Empress of Japan was one of three sister ships. The Empress of India was sold to the Gaekwar of Baroda during the war and served as a hospital ship for Indian troops, later being returned to the merchant service. The Empress of China was lost on a reef off the Japanese coast some thirteen years ago.

Combined Harvester-Thresher

The harvester-thresher has had a very definite place in the crop of 1927. In 1926 there were 180 machines in Western Canada, which cut approximately 99,000 acres. During the present season 200 machines were distributed in this territory alone.

Manitoba Aviation League

Organization Is Expected To Give a New Impetus To Flying In the Province

The keen public interest in aviation, and the fact that Winnipeg will, in time, become one of the most important airports in this country, has resulted in the formation of the Aviation League of Manitoba. With leading citizens serving as officers of the organization, and on the Board of Governors, it is expected that the League will give a renewed impetus to flying in this province. The officers of the League follow: J. A. Richardson, honorary president; D. C. Coleman, president; H. P. Crabb, secretary; Board of Governors: Edward Anderson, T. C. Anderson, W. R. Clubb, J. B. Coyne, P. G. DuVal, Charles Gray, W. H. Gardner, J. Hunter, S. N. Jones, W. A. Kingsland, A. W. McLimont, W. McCurdy, Hugh Osler, R. H. Parkhill, C. S. Riley, J. A. Sully, W. A. Strath, Mayor R. H. Webb, and F. O. Woodman.

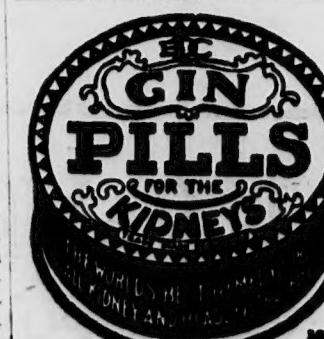

The object of the League, as set forth in the constitution is: To foster, encourage, and advance the science of aeronautics; to kindle and keep alive interest in sane and legitimate aviation; to encourage and assist scientific groups or institutions in promoting the science of aeronautics, and aerial navigation, and to promote uniform laws, flying regulations, and air routes. To prepare and distribute general and scientific aeronautical data pertaining to atmospheric conditions, flying fields and air routes, to encourage and organize volunteer air cadet squadrons for boys and young men, in which they can receive practical and theoretical instructions to prepare them for active participation in aviation, to do all such other lawful things as are incidental or conducive to the attainment of the above objects.

In keeping with the work of the League, Major General J. H. MacBrien, C.B., C.M.G., D.S.O., addressed the Canadian Club at luncheon in the Royal Alexandra Hotel on Tuesday, October 18.

Banff Winter Carnival

The Winter Carnival at Banff is to be held from February 4th to 11th next year, according to L. C. Orr, president of the Banff Winter Sports Association. Preparations are under way that give promise that this carnival will eclipse all previous events of the kind.

SUNDAY SCHOOL LESSON

OCTOBER 30

AMOS DENOUNCES SIN

Golden Text: "Seek good, and not evil, that ye may live; and so Jehovah, the God of hosts, will be with you, as ye say."—Amos 5:14.

Lesson: Amos 2:4 to 3:15.

Devotional Reading: Psalm 15:1-5.

Explanations and Comments

I. Judah's Sins and Threatened Punishment, verses 2-5.—"Thus saith Jehovah," were the words with which Amos prefaced his denunciation of sin, for he rightly believed that he was the mouthpiece of a righteous God. "For three transgressions of Judah, yea, for four (the Hebrew way of saying, of accumulated transgressions), I will not turn away the punishment thereof." Judah, the Southern Kingdom, had sinned over and over again; it was not any one evil act, but persistent, repeated evil acts that had called forth judgment. "Because they have rejected the law of Jehovah (the teaching of the prophets and priests), and have not kept his statutes (the definite, legal enactments), and their lies have caused them to err, after which their fathers did walk." "By 'lies' are meant the unreal, imaginary deities, the Baalim and Astartoth, who have no existence save in the minds of the worshiper, and therefore are sure to disappoint his hopes."—Dummelow.

"But I will send a fire upon Judah, and it shall devour the palaces of Jerusalem." Judah would share the doom of the neighboring nations upon which the prophet had pronounced God's judgment in the earlier part of his address.

Says Greenland Once Tropical

Danish Explorer Has Evidence To Prove His Claim

Lauge Koen, Danish explorer, has returned to Copenhagen from an exploration of Greenland with evidence that Greenland was once a tropical country. Koch and two assistants explored the coastland of North Scoresby Sound to Denmarkhaven, Greenland. The exploration is regarded as important because it shows inhabitants new routes to North Greenland.

Koch brought back the largest collection of specimens ever taken from Greenland, eight tons of fossils, plants, and animals showing three geological periods. Some specimens indicated that at one time there was tropical life on Greenland, such plants as palms growing in abundance. Signs of numerous hot springs and rich animal life were found.

DYSENTERY WAS SO BAD BECAME ALARMED

Mrs. Wallace Pepper, R.R. No. 6, Simcoe, Ont., writes: "Last summer I was very bad with dysentery. I lost my appetite, and had such severe pains in my abdomen they made me very faint. I passed blood which greatly alarmed me, so I hurried to the doctor. He told me the quickest way to get rid of it would be to take

"I took only part of a bottle and was completely relieved. I feel I cannot recommend it too highly."

This wonderful bowel complaint remedy has been on the market for the past 80 years; put up only by The T. Minard Co., Limited, Toronto, Ont.

Germany is represented for the first time since 1914 at the exhibition of the London Salon of Photography.

Argentina is entering a new era of prosperity, caused by increased world demand for its products.

"That music makes me ill. I shall leave here soon."

"Why not at once?"

"Because I have paid for this dance."—Journal Amusing, Paris

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste, it's delicious! Being purely vegetable, you can give it as often as there is a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning; it is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

Children Cry for

Fletcher's CASTORIA

Early Home Of Mankind

Find Skull In Africa Of Man Who Lived 25,000 Years Ago

A male skull, declared to be a perfect specimen of the type of men who existed about 25,000 years ago, has been brought to the United States by Dr. George L. Collie, professor of anthropology at Beloit College.

Dr. Collie, who represented the Logan Museum of Beloit, in Algerian excavations, borrowed the skull from M. A. Dobruge, its French discoverer, for examination by United States scientists. This and other recent discoveries in Africa provide convincing proof, said Dr. Collie, that Africa and not Asia, was the early home of mankind.

Sore Throat

Spread on brown paper and apply on outside. Reduces swellings and eases pain.

MINARD'S "KING OF PAIN" LINIMENT

It is wise to be certain that the enamel used in any white painting you are having done is of good quality. The extra cost will be saved when it comes to keeping it clean.

"A Babe in the House is a Well-spring of Pleasure."

St. Catharines, Ont.—"During motherhood I was all rundown, nervous and weak, when, upon advice, I began taking Dr. Pierce's Favorite Prescription. It strengthened me, quieted my nerves and I had no more trouble. I kept well and had a fine, big, healthy baby—he has scarcely had a day's sickness. The Favorite Prescription was so helpful to me that I believe it is the only medicine for the expectant mother to take."—Mrs. Gordon Bonck, 33 Wiley St.

Go to the drug store at once and obtain this Prescription in tablets of liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial package of tablets.

BURNSIDE

The next meeting of the Lone Pine W.I. will be held at the home of Mrs. Hugh McLean on Thursday, November 10th. Mrs. Wm. Lyons will give a paper on "Immigration," at the last month's meeting at Mrs. Chas. Mardon's. Mrs. Wm. McCulloch gave a paper on "Child Welfare and Public Health."

The Burnside U.F.A. are putting on a Box Social and dance in the Lone Pine Hall on Friday evening, November 18th. The proceeds of which are to help pay off some of the bonds against the Hall.

We are glad to hear that Master Howard Pross is doing nicely and will soon be out of the hospital.

The W.I. and the Hall Board held a joint meeting on Saturday night last in the Hall and discussed the finishing of the interior of the building.

Rev. Hayes is giving an illustrated lecture on Africa at the Hall on Friday evening of this week. Mr. George Metz is building a new and up-to-date farm home on his land across the road from his present buildings.

The Burnside school combined with Greenacre School last Friday evening to hold a very enjoyable Hallowe'en party at the home of their teacher, M. Napier Haskins at Baucroft. Miss Irene Haskins, the teacher at Greenacre, assisted in entertaining the children.

MOUNTAIN VIEW NOTES

The Mountain View W.I. met at the home of Mrs. Ed Blain, Thursday, October 27.

Roll call was answered by autumn quotations. The subject of the meeting was "Fire Prevention on the Farm," members reading articles from newspapers and farm bulletins.

The people of this vicinity who attend United Church services conducted by Mr. Hayes in Community Hall are holding a "Chicken Supper" on November 16th at the Hall.

Supper will be served from 6 to 8 p.m.. A short program and opportunity for a social evening will be had after the supper. Admission for adults 50c, school children 25c and children under school age free.

The Didsbury East U.F.A. local spent a very pleasant evening, at the home of Ed. Blain, Oct. 31st. They are giving a dance in Mountain View Hall on November 18th.

Here and There

The E.P. ranch is the latest to join the wheat pool. Professor W. L. Carlyle, manager of the ranch, on behalf of H.R.H. the Prince of Wales, has signed a pool contract covering one thousand acres.

In the annual report of the Roads Department of Quebec Province this year a general increase of 20 per cent. in automobile traffic has been recorded. In some sections of the province the increase over last year has been more considerable.

A recent report issued by the secretary of commerce of the United States Government at Washington estimated the American tourist traffic into Canada as representing \$200,000,000 of the \$761,000,000 spent by Americans in foreign countries for the year.

The Canadian Pacific Railway has let contract to a chemical company for the extermination of weeds along its right of way on western lines. This fall a total of 2,690 miles will be sprayed with a death dealing liquid by a mechanical device attached to tank cars.

Motor cars continue to occupy place of first importance in Canadian trade with South Africa, according to the report of the trade commissioner at Cape Town. Following this the items of principal importance are wheat, paper, tires and tubes, agricultural machinery, condensed milk, fencing, canned fish, white lead, oatmeal, binder wine.

On Wednesday, November 9th, the Opera House will show a John Gilbert production entitled "Flesh and the Devil." It is a picture, vivid and compelling, that will arouse you to laughter, move you to tears, and during its nine long reels, will hold you entranced in its interesting characterizations and gripping incidents.

K. R. McLean, R.O., Sight Specialist, will make his monthly professional visit to Didsbury on Thursday, November 10th office adjoining Dr. Evan's Theatre Block. For appointment phone 113 evenings. Calgary office with Dr. Millican, 212 Herald Bldg., Eye, Ear, Nose and Throat.

PUBLIC HEALTH ENDANGERED

Chin Lee, proprietor of the American Cafè, was convicted before Justice of the Peace J. W. Phillipson on a charge of allowing filthy water and swill to accumulate at the rear of his premises, contrary to the Public Health By-law. He was fined ten dollars and costs.

CARD OF THANKS

Mrs. J. Cummins wishes to take this opportunity of extending her grateful thanks to many for their kindness to her and her family while in Didsbury district. Especially would she thank Frank Leeson, W. P. Coates, Dave Irwin W. J. Scheidt, A. R. Kendrick and J. Reed for their most valuable help in appraising her farm crop and equipment. Also to Messrs. Scheidt, Irwin and Leeson in matters connected with the re-adjustment of her hail loss, and to the Rosebud Social Committee and friends in the community for their many kindnesses and assistance in many ways.

FOUND

Small leather purse containing 1914-15 British and Allied War medals. Awarded to Pte. Grant, Seaforths. Will forward same to owner on receipt of address. Please state battalion and regimental numbers for identification. Ben Parkes; W. Sterdale.

Auction Sale.

The following chattels will be sold by me at Public Auction at my office on

SATURDAY, NOV. 12th

Dining table, 6 Dining room chairs, centre table, 2 rockers, writing desk, sideboard, Singer sewing machine, couch, home oak heater, lot of stove pipe, small table, drop leaf kitchen table, lot of lamps, good brass bed, complete, cook stove, Royal Edisonia washing machine, wash boiler.

Ironing board, kitchen cabinet, 4 kitchen chairs, roast pan, pots, pans, kettles, quantity of dishes, power washer, box spring, good, stout iron bed, white enamel washstand, white enamel dresser, mahogany dresser, Congoleum rug, 9 by 12, piece of linoleum, 12 by 16, buggy robe, pictures, sink, etc.

Sale at 1:30 p.m. Terms cash. J. W. PHILLIPSON, Auctioneer.

Here and There

The apple crop this year will run to 1,250,000 barrels, according to W. H. Chasse of Wolfville, or a fifty percent increase over last year, while the crop of the Eastern States is reported only half that of last year.

The Department of Lands and Forests of the Province of Quebec has planted 1,600,000 trees this year—a record figure and nearly double that of last year. Next summer it is proposed to plant 8,000,000 trees.

Canada's net debt decreased by \$52,498,429 during the first four months of the fiscal year. It now stands at \$2,295,335,940. During the corresponding period of last fiscal year there was a decrease of \$41,251,655. Both revenues and expenditures show increases.

To serve the interests of hundreds of farmers in Southern Saskatchewan two new branch lines of the Canadian Pacific Railway began to operate on September 1st, according to announcement by D. C. Coleman, Vice-President, C.P.R. The longer of the two lines runs from Assiniboine south to Coronach, a distance of 59 miles, and the second, a 27-mile stretch, runs from Bromhead to Lake Alma.

A barred Plymouth Rock hen, owned by the University of Saskatchewan, has made a new record for egg production. This new champion has a total of 339 eggs in 365 days, not only a new record for barred Plymouth Rocks but, as far as is known, a new record for all heavy breeds of poultry. The bird was bred and raised by the poultry department of the University.

For Sale

Four inch Skane Adams wagon, new last fall. Also good double set of breeching harness. Would take a few good young cattle.—Wm. Wrigglesworth, Didsbury.

In order to establish a model settlement just outside Winnipeg, a party of Catholic colonists sailed on the Canadian Pacific liner "Marloch" for Saint John and reached Winnipeg in charge of Father Keirloft, of the German Catholic Immigration Association. The party consisted of about 30 families and came under the direction of the Canada Colonization Association.

Included in the programme of new construction in the Manitoba district of the Canadian Pacific Railway is the building of new standard station houses to be located at Upsala, Toulon, Petersfield, Kemnay, Alannedy, Pettapiece and Dominion City. New section houses will be built at sixteen points in the Manitoba district while a mechanically operated coaling plant with a capacity of 100 tons will be built at Polar Point.

It's a wise man that buys his Christmas goods ahead of the rest!

Better the Man with His Eye to the Sky than the Man with His Ear to the Ground

ALL through its long, successful history, General Motors of Canada has had its eye to the horizon . . . listening not for what followed, but looking always toward the thing ahead.

And General Motors has seen many of its visions realized . . .

It has seen a great industry grow up in Canada to supply the Canadian family with a means of transportation to meet its needs and resources, to answer the desire for style, dependability, luxury.

It has seen, in the Canadian Fisher Body plants, the perpetuation of Canadian ideals of craftsmanship. It has seen, in the General Motors Research laboratories, the development of countless advances and refinements on which much of modern motoring com-

fort depends.

It has seen, on the General Motors Proving Grounds, the proof of principles which are now accepted factors in automobile design and construction.

It has seen the triumph of co-operative purchasing and manufacturing methods with their resultant economies to be shared with the buyers of General Motors cars.

And the eyes of General Motors are still to the horizon . . . still seeking new ways to improve General Motors cars and to place the cars within reach of ever-widening circles of Canadian buyers.

The Misuse Of Gasoline

The number of tragedies reported in Western newspapers this fall as resulting from the careless use of gasoline and coal oil is simply appalling. Loss of life, terrible injuries to others, and destruction of valuable property is the toll which has been taken, and hardly a week passes that the total does not mount still higher.

The Fire Commissioner for Saskatchewan in a recent radio address stated that, on the average, twenty-five lives are lost annually from this cause alone. It is probable that the loss is just as great in the other western provinces.

In one small district in Saskatchewan three such disasters occurred within a few days of each other, resulting in four persons receiving severe burns, the complete destruction of one home, and damage to another. In another district two boys were burned, and in a third district a young lad was so severely burned that he died. All these accidents occurred at practically the same time.

Although gasoline may be sold in red tins or containers plainly marked as to their contents, the fact is that the gasoline is all too frequently emptied into other receptacles which are not marked, nor properly sealed. It is frequently mistaken for coal oil, and even for water.

Furthermore, many people forget, and an even larger number of children do not know, that the greatest danger from these liquids arise from their vapors. It is the vapor from gasoline mixing with the air which becomes a highly explosive article, and the lighting of a match, or an electric spark, means a fearful explosion. Even a can which has contained gasoline, but is emptied, may still retain a quantity of this vapor, and bringing such a vessel near a lighted lamp, a stove, or a lighted match may mean an explosion.

Gasoline and coal oil should not be used to light fires. To so use it is to invite disaster. Gasoline is now largely used in cleaning clothes, but everybody so using it should exercise the greatest care that there is no flame or fire of any kind near at hand. In fact, gasoline for cleansing purposes should only be used outdoors and away from all fire. If the weather is such that outdoors work is impossible, then do the work in a room in which there is no fire and which is lighted by natural daylight or an incandescent electric light. Never have a lighted lamp near. Clothes cleansed in any way with gasoline should be hung outdoors in the open air to dry and be left there until the last vestige of the gasoline fumes has disappeared.

When one stops to realize that it is the vapor from gasoline mixed with air and exploded by a tiny electric spark in our motor car engines that drives these cars along our streets and highways at high rates of speed they will gain some idea of the terrible power of this vapor and realize how great care should be taken in its use.

Possibilities Of the North

Says Hudson Bay Railway Will Open Up A Great Area

"In five to ten years the Hudson's Bay Railway will be amply justified in new towns established, power plants erected, the country utilized and the possibilities of Northern Canada developed," said James A. Green, retired iron magnate of Cincinnati, who was a visitor to Winnipeg recently.

It was the beginning of a new era, said the American visitor, which would revolutionize the whole life of the Dominion. The railway would open up a great area of tremendous waterpower and enormous lakes with almost unlimited supply of fish of the finest quality.

It was as good a grass country as Texas, Mr. Green said, and there were thousands of square miles fit for cattle. He pointed to the future possibility of domesticating the caribou, as had already been done in Alaska, and so provide a meat supply "world without end."

Injured Woman Travels By Plane

Advised by her doctor to get to London as quickly as possible, a woman who had been injured at the winter sports in Switzerland, reached Paris by train, thence flew to London on an improvised cot on an airplane. She made her will before starting.

The visitor (to convict): What are you doing—sewing?

Hard Case: No, reaping.

Stores In Canada

Over Billion and a Half Of Capital Is Invested

There are 66,814 stores or shops in Canada in which merchandise is sold. The total capital investment of these establishments is \$1,580,123,723, according to a recent compilation made by the Canadian Government Bureau of Statistics. The amount invested in retail stores is \$914,996,820; in wholesale, \$476,559,544; in stores doing both a retail and wholesale business, \$188,573,349.

The total purchases of the stores were \$2,321,078,297 in a single year, divided: Retail, \$1,225,916,562; wholesale, \$812,129,631; wholesale and retail, \$283,922,904. The sales totalled: \$5,039,665,185, divided: retail, \$1,642,103,468; wholesale, \$1,021,920,931; wholesale and retail, \$366,628,786.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

Land Waiting For the Plough

Millions Of Acres Of Unoccupied Lands In Western Canada

Canadian agriculture rests upon an unusually generous endowment of cultivatable lands. Of the 300,000,000 acres believed to be suitable for farming, only 60,000,000 acres are under cultivation. The 240,000,000 acres awaiting the plough are capable of sustaining many added millions of population. Despite the rapid advance of settlement in recent years there are at present in Western Canada 25,000,000 acres of unoccupied lands situated within 15 miles of the railways and available for purchase at prices ranging usually from \$15 to \$20 per acre.

Confidence is like a china plate; if broken it may be mended, but it invariably shows where the crack was.

Canada's Furniture Industry

B.C. Is Third and Manitoba Fourth In Number Of Factories

The Dominion Bureau of Statistics in their recent report on the furniture industry in Canada for 1924 and 1925 supply the following figures which cover the greater part of the furniture made in Canada. There are some woodworking factories, however, that do cabinet work as a sideline which are included under other classes of manufacture. Out of a total of 336 establishments, 208 were situated in Ontario, 65 in Quebec, 25 in British Columbia, 17 in Manitoba and the remainder scattered among the other five provinces.

Touchy Corns Relieved By Marvel Liquid

Instantly the ache stops—the pain goes away—that is the immediate effect of Putnam's Corn Extractor. Paint the corn or callous with "Putnam's", and the corn will shrivel up. After a few applications of "Putnam's" the corn will drop out. No pain, or disappointment. Putnam's does the work—a sure pop corn remover. Get a bottle from any drugist. Refuse a substitute.

Keeps Tab On Geese

Jack Miner Receives Many Tags From Birds Shot Up North

Regularly each year Jack Miner places metal tags on the legs of geese which sojourn in the Miner Bird Sanctuary on their migrations north and south. It is interesting to note how regular these birds are in their habit of returning year after year to the same place to rest. Jack Miner recently received 28 tags from George Cottier, of Fort George, Que., on James Bay. These tags were collected by Eskimos and were in number and date as follows: 3, 1922; 3, 1923; 1, 1924; 1, 1925; 15, 1926; and 5, 1927 (spring).

TRIALS OF INDIGESTION

Errors About This Trouble Into Which People Fall

Many people so far misunderstand the digestive system as to treat it like a machine; neglecting it until it works sluggish, then irritating it into work again by the use of purgatives. The stomach needs help at all times, but a study of the process of digestion will show that purgatives, as commonly taken, are seldom necessary and often harmful.

To safeguard your digestion the diet must be controlled. Over-eating is always harmful, but one must assimilate enough food to supply the needs of the blood. Remember, the blood has to carry nourishment to all parts of the body and find fuel for its energy. Hence when the blood becomes weak and fails to do its work, indigestion arises. Therefore the cure remedy for indigestion is to build up the blood. If you suffer from any form of indigestion choose your diet carefully and take wholesome nourishment. Above all, start building up your blood by taking a course of Dr. Williams' Pink Pills. Then under the influence of the new blood supply, your digestive system will respond naturally, your appetite improve and your food will do you good. So begin to improve your digestion by starting to take Dr. Williams' Pink Pills now.

You can get these pills from your druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Why Not Steel Houses

Offer Same Advantage Of Economy As Ocean Liners

If a Pullman car or an ocean liner can be constructed of steel, why not a house?

Steel cars and ships are waterproof, fireproof and comparatively free from depreciation. Costing more at the outset, they represent a saving in the end. Steel houses offer the same advantage of economy and safety.

The American Institute of Steel Construction which represents ninety per cent of the steel manufacturers in this country, has been hoping that some one would invent a steel house that was commercially practical.

Timing Speed Of Animals

Sportsmen along the Pacific coast have been using their stop watches on fish and wild beasts. A grizzly bear, pursued through a narrow canyon by an automobile, ran 45 miles an hour. The savage baracuda can swim as fast as 70 miles an hour. The seal, usually considered very speedy in the water, requires four minutes to swim a mile.

Minard's Liniment for Chilblains.

Minerals In Dead Sea

British Syndicate Secures Concession To Work Ancient Body Of Water For Mineral Contents

A concession for reclaiming the vast mineral resources of the Dead Sea, The London Sunday Times learns, has been awarded a British syndicate, and the American and continental tenders have been definitely rejected.

The syndicate which has secured the concession will be a subsidiary company of the Imperial Chemical Industries, Ltd., a great chemical combine with a capital of \$356,000,000, including the Brunner and Mond interests.

Expert examination, according to The Times, has shown that the Dead Sea is a practically inexhaustible source of potash and that its exploitation will probably be the making of Palestine.

Might Solve Problem

Empire Manager Agency Proposed In Old Country

The London Daily Chronicle, editorially, under the caption, "Matrimonial Agencies," says "as everyone knows, there are more women than men in this country, and in some of the Dominions there are more men than women. Here is a surplus of women, many of whom, it is whispered, want husbands, whilst men in the Dominions are eating their hearts out for lack of wives.

Sir George MacMunn, formerly Quartermaster-General in India, suggests a remedy. Why not an Empire matrimonial agency, conducted strictly on official lines, by the Council of Empire Settlement, with photographs and testimonials, previous experience not required. It seems an almost feasible plan."

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

Resumes Career As Sailor

Prince George Takes Post On British Flagship Nelson

Our sea dogs of the British Navy stroked their whiskers in glee when Prince George resumed his active career as a sailor, for there has been reports that he might forsake the navy for the army.

The Prince, who ranks as a lieutenant, is now attached as French interpreter to the staff of Sir Hubert Brand, commander in chief of the Atlantic—job which will pay him one shilling and six pence, or about 36 cents a day, in addition to his regular pay as an officer.

Prince George will be stationed aboard H.M.S. Nelson, Britain's newest flagship which became the fleet flagship on the anniversary of Nelson's historic victory over the Franco-Spanish fleet off Cape Trafalgar 122 years ago.

Just before starting for Portsmouth, the Prince witnessed a spectacular film fire which recalled his own experience in China on New Year's Eve, 1926, when he was attached to H.M.S. Hawkins, and with other members of the crew fought a Hong Kong fire, adding guests to escape.

Trade depression in Chile is attributed largely to new laws passed or planned.

THOMAS ALLEN, Publisher,
266 King Street, W. Toronto

Has Had Long Rest
Built by James Watt, in 1797, the "Sun and Planet" engine is in working order again after forty-two years' rest. The engine is now in the science museum at South Kensington, and was put in motion recently for the first time since 1885, when it was dismantled and moved to the museum.

An Oil For All Men—The sailor, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and be amongst those taken on a journey.

The first school in the Netherlands for civil aviation is being financed through the efforts of the Rotterdam Aero Club which has been assured that no competing school will be permitted.

An Oil That Is Prized Everywhere—Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

The groom at a wedding is like the engine of an automobile; never seen but very necessary to make the thing go.

Genuine
BAYER
ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monheim, Germany, of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

WOMEN ASK FOR FRANCHISE FOR QUEBEC PROVINCE

Ottawa.—“The Dominion Government has not the right to go beyond its jurisdiction and interfere with that jurisdiction which under our constitution has been given to Quebec or any other province.”

So stated Premier W. L. Mackenzie King in reply to a deputation from the Canadian Alliance for Women’s Votes in Quebec, who urged that the Dominion Government take some action toward granting the women of that province a vote in provincial elections.

“I am afraid,” continued the Prime Minister, “that the Government of the province of Quebec might not appreciate any attempt by us to tell it what it should do.”

This did not mean that the Dominion Government, he said, as not sympathetic to the request of the delegation; but it must be borne in mind that under the constitution of our country certain rights were given to the federal parliament while other rights were under the jurisdiction of the respective provincial governments. In federal elections, women could vote; but the Dominion Government could not proceed to interfere with the right of any of the provinces in respect to the question as to whether women should vote in provincial elections.

“I think you are in the wrong court,” interjected Hon. Ernest Lapointe, minister of justice. The provinces were just as supreme within the particular ambit of their jurisdiction as the Federal Government was within the authority conferred upon it under the British North America Act.

Smallpox In Ottawa

Mild Epidemic Results In Order For Compulsory Vaccination In Schools

Ottawa.—Compulsory vaccination for all school children in Ottawa in the campaign to suppress the mild epidemic of smallpox in the city was ordered by the city board of health.

Four free vaccination bureaus will be opened immediately and no child will be permitted to attend school or other educational institution unless provided with a certificate of vaccination.

This is the first time in the history of Ottawa that such an order has been found necessary.

Since October 1 there have been 101 cases of smallpox reported in the city and suburbs, Dr. T. R. Lomer, city health officer, informed the board today. Hopewell Island Smallpox Hospital is filled to capacity with 34 cases, the largest number in the past ten years.

Tourist Trade In Canada

Amount Spent Last Year Is Estimated At \$190,463,000

Ottawa.—The tourist trade in Canada over the past six years is the subject of a Bureau of Statistics survey which estimates the amount spent by visitors from other countries in the Dominion last year as \$190,463,000.

Since 1920, when the estimated amount spent was \$83,734,000, there has been a progressive increase each season. Tourists arriving by ocean ports spent about \$5,300,000 while those arriving by automobile spent approximately \$105,000,000 last year. More than 2,000,000 motor cars came through Canadian ports from the United States last year while 2,300,000 railroad tickets were purchased in the United States for Canadian ports.

Tourist hotel bills last season amounted to \$25,900,000, of which the Western provinces got \$5,000,000.

Would Frustrate Robbery

London.—Plans for a holdup of the clearing house for city banks were revealed today when it became known that following information received by the authorities an increased number of police officers and detectives have been stationed in the vicinity of the clearing house every morning for some time while clearings are being made.

Asking Parliament To Approve Trade Treaty

Canadian-Czecho-Slovakian Agreement Is Being Drawn Up

Ottawa.—Parliament will likely be asked at the coming session to ratify a trade agreement between Canada and Czecho-Slovakia Republic. Negotiations, it was learned, are now well under way for a trade treaty between the two countries on the basis of the mutual exchange of most favored nation treatment.

At present a provisional treaty only, for the regulation of trade relations, is in effect. This provisional arrangement, signed shortly before Christmas last, will expire next spring.

Under the terms of the provisional treaty now in force Canada extends to the products of the Czecho-Slovakia Republic the rates of the intermediate tariff. Czecho-Slovakia, in return, extends most favored treatment to a selected list of Canadian products, comprising in all 71 items of the Czecho-Slovakia customs tariff.

Proposed Flight Of Dirigible Abandoned

Visit Of Los Angeles To Canada Has Been Cancelled

Washington.—Lack of an adequate and experienced landing crew at Ottawa caused the navy department to abandon the proposed flight of the dirigible Los Angeles to Canada.

The dirigible, carrying Sir Philip Sassoon, British under secretary for air, and Assistant Secretary Warner of the Navy, Davison of the War Department and McCracken of the Commerce Department, was to have made the trip across the international boundary for the first time to give Sir Philip an opportunity to inspect and observe the ship. He probably will be taken instead on a local flight from Lakehurst, N.J.

A crew of between 300 and 500 men is required to land the Los Angeles. This number would not be available at Ottawa during the time when the Los Angeles would have arrived, the navy said in calling off the flight.

Schwartzbard Acquitted

End Of Sensational Murder Trial In Paris

Paris.—At the end of the eighth day of one of the most remarkable trials ever conducted in Paris, Samuel Schwartzbard, young Jewish watchmaker, who assassinated General Simon Petlura, Ukrainian separatist leader, on a Paris street corner 15 months ago, was set free by the Court of Assizes.

Schwartzbard was acquitted on all criminal counts, but as condemned as is the custom of French courts—to pay nominal one-franc damages to the family of the victim.

The verdict was returned in 32 criminal counts, but was condemned as trembling voice, but smiling, announced the acquittal which was greeted with a howl of approval by the jammed court-room.

Most of the 800 spectators screamed and cheered, laughed and cried.

Carolist Movement Grows

Severe Censorship Has Been Established In Romania

Vienna.—Reports from Belgrade say a severe censorship has been established at Bucharest on all news. Telephone communication between Belgrade and Bucharest has been cut off and only official telegrams are arriving at Belgrade from the Romanian capital.

The Carolist movement, however, is known to be assuming a most serious character, and disappointment with the Government is declared to be increasing. Many of the Carol supporters have been arrested.

Another despatch says “violence has broken out in Bucharest.”

Wheat Yield Record Broken

Lethbridge.—All wheat yields in a season of amazing returns went by the board when J. E. Cook, of Magrath, 24 miles south of this city, reported a return of 176 bushels on a piece of fallowed land measuring slightly over two acres. Mr. Cook vouches for the truth of the yield.

A cablegram was recently sent around the world in eight minutes.

Immigration Service Chief

J. Bruce Walker, chief of the Canadian immigration service in Europe, who declares Canada is seeking healthy and self-reliant settlers from Great Britain.

Predicts Race Around World

British and German Dirigible In Competition Says New York Writer

New York.—The New York Evening Post says a race around the world between the German and British dirigibles looms as the high point of interest in next summer’s aerial dramas.

The paper quotes Howard Mingos, a writer interested in aviation, saying that two airships are under construction in England, each of 5,000,000 cubic feet capacity, to be used on a mail and passenger service between England, Egypt and India. Mingos said the Zeppelin Company in Germany is building its 127th ship which is to have a gas capacity of 3,500,000 cubic feet.

“I have just received word that the British and Germans will probably race their new ships on a flight around the world,” Mingos continued. “Both ships should be completed early next summer. The world flight should require between 12 and 14 days with, say, two stops for fuel en route.”

No Unemployment In Quebec

Quebec.—There is practically no unemployment in the province of Quebec, according to Louis Guipon, deputy minister of labor. “Never before has the province been through such an era of prosperity, judging by the demand for labor,” he stated, commenting on conditions. In the district of Montreal conditions are very good and according to the report of the provincial employment bureau there, hundreds of men are finding work each week.

Inquires About Pension Plan

Yukon Taking Up Question With Minister Of Labor

Ottawa.—Percy Reid, gold commissioner for the Yukon, is in Ottawa to take up with the Minister of Labor, Hon. Peter Hoenan, the question of applying the old age pension legislation to the Yukon.

Commenting on the visit of the gold commissioner, Mr. Hoenan declared that, in conference with the premiers of the prairie provinces, he had been encouraged to believe that co-operation between them and the Federal Government in the matter of establishing old age pensions in their respective provinces would shortly produce practical results. The minister cited the example of British Columbia in refutation of the suggestions made that the scheme was unworkable.

“Whatever may be said against old age pensions and the fifty-fifty plan as between Federal and provincial contributions,” he said, “the fact remains that the old people in British Columbia are now receiving their cheques, and that is highly important.”

Entries From Royal Ranch

Prince Of Wales To Exhibit Stock At Royal Winter Fair

Toronto.—The Prince of Wales again will be represented in the show ring at the Royal Winter Fair. A. P. W. Westervelt, manager of the fair, has just received an entry of six purebred horses from the “E.P.” ranch owned by His Royal Highness at Pekisko, Alta. Two of the horses are Percherons—Princeton Carmon and Princeton Donovan. Others include Major Summers, Somerset and Somerset Gailey, all thoroughbreds.

Two years ago the Prince of Wales won the senior and grand championships in Shorthorn bulls with his famous white bull King of the Fairies. As the rescue ships hove into sight a cheer went up from the Mafalda’s decks, then there was an explosion below and the Mafalda began sinking rapidly. This information was broadcast to the approaching rescue ships. The commander of the Formosa signalled to the other rescue ships that he would attempt to get close to Mafalda before she sank, hoping thereby to save everyone aboard. His task was extremely difficult because of the darkness, but his daring is hailed by the survivors as a great deed, inasmuch as his ship took a large number of passengers from the sinking Principessa’s decks.

The others ships’ crews labored valiantly, saving many from rafts and lifeboats.

The Mafalda was valued at 12,000,000 lire (about \$670,000), and was insured, it is reported, for 8,700,000 lire. It carried freight worth about 2,000,000 lire, insured separately.

GALLANT RESCUE OF PASSENGERS ON SINKING SHIP

Rio De Janeiro, Brazil.—The Italian liner Principessa Mafalda, which sailed from Genoa with nearly a thousand passengers aboard, more than 800 of them Italian emigrants bound for a “land of promise” in South America, lies at the bottom of the ocean off the Brazilian coast.

Rescuing vessels answering the call of the Mafalda’s SOS are believed to have rescued all but some 68 out of a total of 998 passengers and a crew of 240.

The steamer sank 80 miles from Porto Seguro, a port of the State of Bahia. Whether she struck a hidden reef or the hulk of a derelict, as one report has it, is not definitely known, but long before the liner disappeared beneath the waves a serious accident occurred aboard—some say a broken screw shaft, followed by an explosion of the boilers.

The story of the swift rescue of nearly 1,000 souls facing death by drowning is an epic of the sea fraught with elements of drama and heroism. Had not swiftly speeding steamers rushed to the rescue of the stricken ship the disaster might have become one of the greatest in marine history—a history written deep in the blood of thousands of lives lost at sea.

As the rescue ships hove into sight a cheer went up from the Mafalda’s decks, then there was an explosion below and the Mafalda began sinking rapidly. This information was broadcast to the approaching rescue ships. The commander of the Formosa signalled to the other rescue ships that he would attempt to get close to Mafalda before she sank, hoping thereby to save everyone aboard. His task was extremely difficult because of the darkness, but his daring is hailed by the survivors as a great deed, inasmuch as his ship took a large number of passengers from the sinking Principessa’s decks.

The others ships’ crews labored valiantly, saving many from rafts and lifeboats.

The Mafalda was valued at 12,000,000 lire (about \$670,000), and was insured, it is reported, for 8,700,000 lire. It carried freight worth about 2,000,000 lire, insured separately.

Protect Slavery Methods

Question Raised In Connection With Child Labor In Rhodesia

London.—Another outcry against slavery within the British Empire, the second within a week, has been raised in connection with legislation recently adopted in Southern Rhodesia which is said to authorize indenture of children to work in mines and the whipping of boys for disobedience.

The Westminster Gazette, which leads the campaign, points out that the legislation applies to children of any age, girls as well as boys, thereby raising grave sexual questions. The paper demands interference by the British Government. The Anti-Slavery Society also is appealing to parliament.

Western Prize Winners

Women Capture Several At Handicrafts Guild Exhibition

Montreal.—Western Canada was represented among the prize winners at the Canadian Handicrafts Guild Exhibition now being held here.

Among Western prize winners were: Pottery, special prize, Miss Doris Corday, Sunderland, B.C.

Prizes were awarded the following for general designing: Mrs. J. H. Stewart, Lumsden, Sask.; Mrs. Burton, Keeler, Sask.; Mrs. R. Wood, Grande Prairie, Alta., and Mrs. F. S. Ansey, Vancouver, B.C.

Wolves In Fort William Area

Fort William, Ont.—Lured south by abundance of wild game, packs of wolves are reported to have invaded the forest country west of Fort William. Indians and trappers of the Lake of the Woods district state that the marauders are fast depleting deer and other small game and in isolated instances have attacked trappers. The wolves, who are said to be of the Alaskan variety, have been seen in widely separated areas.

Here is a recent picture of Lord and Lady Willingdon taken at Ancaster Golf Club, Ontario, the scene of Canadian open and international play several weeks ago.

EVANGELICAL NOTES.

The Rally Services last Sunday, held under auspices of the League of Christian Endeavour, gave evidence of much new interest in the young people's work here. Twenty-one young people, plus the choir took part in the program, several from Westcott and Sunnyslope, as well as Didsbury. The Rally banquet in the parsonage on Friday evening preceding, was also a red letter day in the history of the League. The attendance was almost more than expected in this busy season of the year. Tables were set for 54 guests. Rev. W. Huston of Innisfail was the speaker of the evening.

KNOX and WESTCOTT

November 6th is Thanksgiving Sunday. Mr. Hayes is taking the Services at Coburn School at 11 a.m. Lone Pine Hall at 3 p.m. (Sunday School at 2 p.m.) Didsbury at 7.30 p.m. Services at Westcott are cancelled for November 6th.

It has been suggested that a display of vegetables be arranged at Coburn and Lone Pine Hall and that these afterwards be donated to the Hospital.

Lone Pine Hall on Friday, November 4th, commencing at 8.15 p.m. An attractive lecture on Africa will be given, illustrated with 60 or more fine coloured slides. Bring cake and sandwiches and have a social evening at the close. The only admission is an offering for missions. Everybody come.

Community Hall has selected Wednesday, November 16th, for their chicken supper and concert. Let there be fair weather and a large gathering.

There will be a chicken supper at the Didsbury Opera House, on November 11th, Armistice Night. A concert will follow.

LUTHERAN CHURCH

Westcott, 10.30 a.m. German
Didsbury, 2.30 p.m. German
Sunday next being Thanksgiving Sunday, appropriate services will be held in both churches. In the sermon of the day the following question will be answered: "When do we show that we are truly grateful for the blessings of the Lord?"

Come, ye thankful people, come,
Raise the song of Harvest-home.

The Ladies' Aid of Westcott will meet with Mrs. E. Artmann on Wednesday, November 9th.

Plans are under way for a Lutheran Laymen's meeting to be held in Calgary on November 27th. Laymen from the Calgary Circuit comprising the Trochu, Craigyley, Youngstown, Didsbury and Calgary fields are expected to be in attendance. Various problems confronting the church will intensively and conscientiously be dealt with at this meeting. It is hoped that the local parish may be well represented.

Third Sunday in month—Morning at 11.00 a.m.
School is held every Sunday.

Curlers to Compete for New Cup.

Curlers representing Olds, Didsbury, Crossfield, Little Red Deer, met at the Victoria Hotel, Olds, on Monday of last week to discuss rules and regulations in connection with the new D. H. Kremer cup, which Dick Kremer, a well-known curler and ballplayer, of Innisfail, is putting up for competition for rinks along the C. and E. railroad, between Crossfield and Red Deer. The delegates present were: Crossfield, Whitemeld and McLeod; Didsbury, J. A. McGhee and S. Watt; Olds, C. M. Saunders and H. A. Samis; Innisfail, J. A. Laird and Earl Freeman. Little Red Deer was ably represented by Billy Wilson, of Innisfail. Red Deer was not able to send delegates, but R. B. Welliver wrote a letter stating he was quite in favor of the proposition and rules governing the cup games. There is a possibility of Carstairs and Bowden coming in by the time the season opens.

The rules governing the play for

1817-1927

THE Bank of Montreal, on November 3rd next, completes the 110th year of its existence.

Opening its first office in Montreal 50 years prior to the Confederation of Canada, the Diamond Jubilee of which was celebrated by the Dominion this year, it has steadily expanded into every part of British North America.

Today it has over 600 Branches located throughout Canada and Newfoundland, with its own offices in Great Britain, France, the United States and Mexico, and offers unexcelled facilities in all departments of domestic and foreign banking.

Head Office, Montreal
